

Permission to Record My Child Reading

Sý Learning — Reading Buddy (research preview) · consent version: probe-consent-v1

Sý Learning is building a children's reading program where a friendly character, **Harper**, listens to a child read aloud and helps them. To make Harper better at understanding how young people read, we record short clips of children reading words and sentences.

What we collect: short audio recordings of your child reading aloud, the words/sentences shown on screen, what your child said, and brief notes about the reading (for example, which sound was tricky). Recordings are tagged with your child's age and **first name or a nickname only** — no last name, no address, no contact information.

Why: to measure and improve how accurately the program understands children reading, and to develop our reading-recognition technology.

How we protect it: recordings are stored securely and used **only** to build and improve the reading program. We do **not** sell or share your child's recordings, and we do **not** publish them. We keep them until you ask us to delete them, or up to **24 months**, whichever comes first.

Your choices: this is completely voluntary. Your child can stop at any time, and you can ask us to delete your child's recordings at any time — just email **jdiaz19124@gmail.com**.

By signing below, I confirm that I am the **parent or legal guardian** of the child named below and I consent to the recording described above.

Parent/guardian name (print): _____

Relationship to child: ☐ Parent ☐ Legal guardian

Child's first name or nickname: _____ Child's age: _____

Parent/guardian signature: _____ Date: _____

For office use (consent record): consentId _____ · ageBand _____ · consentTextVersion probe-consent-v1 · method ☐ in-person signed ☐ digital, parent present · recorded by _____ · date/time _____

This is a research-preview consent for a small, in-person study. It is a plain-English draft, not attorney-reviewed legal text; it should be reviewed by a COPPA-experienced attorney before any product or broader collection.
